

CleanCut

315 THE NEW CUTTING TECHNOLOGY

Precise pipe cuts in the clean room

The AGRU CleanCut 315 cutting machine is the ideal solution for companies that require the highest precision and cleanroom quality in pipe processing. With its versatility, mobility and safe handling, it enables efficient and flexible processing of all AGRU pipe systems while maintaining the highest quality standards.

Perfect cuts in cleanroom quality

The agru CleanCut 315 cutting machine cuts AGRU plastic pipes quickly and precisely in high-purity quality.

Time-saving further processing

The chip-free, right-angled and dry cut edges enable fast further processing without time-consuming reworking.

Safety and precision

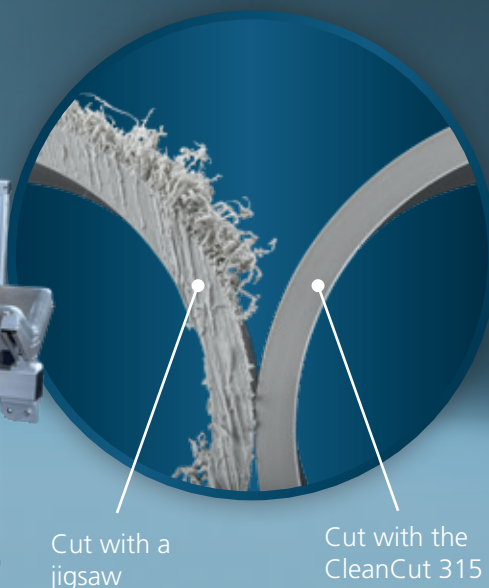

Solid pipe supports and fully automated, servo-controlled cuts ensure safe handling and precise cutting results.

Mobility and flexibility

Mounted on a flight case for easy transportation, the CleanCut 315 is suitable for flexible use on construction sites or in workshops.

Technical data

Cutting range	OD 90 mm - 315 mm, SDR 33, 21, 17, 11, 7, 4
Plastic class	all AGRU pipe systems (PVDF, ECTFE, PE 100-RC, PP)
Max. power	1,6 kW
Power supply	230 V / 110 V, 50 Hz - 60 Hz
Dimensions incl. roller supports	W 4100 mm x L 786 mm x 1452 mm
Weight of the machine incl. packaging	470 kg
