

AGRU SDR 26 program

The efficient pipe system
for moderate operating
pressures

Complete piping system, consisting of

- Pipes
- Short spigot fittings
- Long spigot fittings
- Electrofusion fittings

Perfect for

- Sewage water
- Agricultural irrigation
- Industry
- Fish farming

Premium material PE 100-RC

- Resistant to slow crack growth
- Cost-saving
- Installation without sand bedding
- PE 100+ association listed

Additional properties

- Homogeneous and longitudinally force-locked weldable
- Compatible with electrofusion and heated tool butt welding
- Maintenance-free due to absolutely smooth inner surfaces
- In conformance with EN 12201

The AGRU PE 100-RC SDR 26 program is the economical solution for low-pressure pipes up to 6 bar for agricultural irrigation, sewage water, industry and fish farming. The low wall thickness not only enables a more efficient use of material, but also a significant reduction in weight, giving you practical benefits such as easier handling.

Wherever moderate operating pressures occur, but maximum reliability and safety are required, this pipe system sets the new standard.

DELIVERY PROGRAM

Product	Code	Dimension
Pipes	70.705.xxxx.26	OD 110 - 400 mm
Short fittings		
Bend 90 °	70.001.xxxx.26	OD 110 - 400 mm
Reduction	70.009.xxxx.26	OD 160 / 110 - 315 / 250
Stubflange DIN	70.012.xxxx.26	OD 110 - 400 mm
Elongated fittings		
Tee	70.066	OD 110 - 400 mm
Bend 45°	70.060.xxxx.26	OD 110 - 400 mm
End cap	70.064.xxxx.26	OD 110 - 400 mm
Stubflange DIN	70.062.xxxx.26	OD 110 - 400 mm
Reduction	70.067.xxxx.26	OD 160 / 110 - 315 / 250
Electrofusion fittings		
E-coupler	70.173.xxxx.17	OD 110 - 400 mm
